

Community Survey

Please consider taking this survey as it provides us with invaluable information and takes less than **5 minutes** to complete.

The CHANGE Collaborative of Manchester wants to learn more about adult perceptions and attitudes towards the use of alcohol and other substances by youth.

Through this survey we will be able to better serve our youth with local prevention programming and information on underage drinking and other drug use in this community. Your answers will also help CCM (Connecticut Conference of Municipalities) identify ways we can support Manchester parents.

This survey is completely anonymous and does NOT ask for information which could identify you.

Thank you for your time and honesty.
