

## Road reconstruction - Phase II

The Highway Division will begin the second phase of road reconstruction on Wednesday July 5, 2017. These roads will be pulverized, graded, and prepared for paving: Summer, Ann, Strant, Wells (from Main to Spruce), Golway, Bremen, Moore, and Woodbridge (Summit to Green).

The preparation will take approximately two weeks. The roads will be a gravel driving surface with raised structures until the paving process is completed.

Paving is scheduled to begin the week of July 24, 2017.

There will be road closures, delays and detours throughout the entire construction period. ALL school busses and emergency vehicles will be able to pass at ALL times.
