

Defective Concrete Update: **The State of Connecticut's captive insurer, known as Connecticut Foundation Solutions Indemnity Company, Inc. (CFSIC) published their "claim management guidelines" online at this link:**

<https://crumblingfoundations.org/>

CFSIC will start accepting applications for foundation replacement funding on January 10, 2019.

Prior to January 10, 2019, there will be two applications now up on the CFSIC website, but these are for information purposes only, and are not functional applications. On January 10, they will become functional electronically and can be completed online. Any applications filed or attempted to be filed before January 10, 2019 will be rejected.

You may contact CFSIC by email at info@crumblingfoundations.org

The CFSIC website provides information about qualifying claims and how claims will be processed. The best place to start is to go to the "For Homeowners" section of the site, which includes a detailed "Q&A" section.

There is additional information about defective concrete on the Town's webpage at this link:
