

Human Trafficking Prevention Presentation

Presentation is Tuesday, September 25, 2018 at Manchester Community College in the Great Path Academy Community Commons room. Two 90 minute sessions are available – 4:00 p.m. and 6:30 p.m., Free and Open to the public.

Seventy percent of trafficking and exploitation begins with predators connecting with youth online. Learn how predators use technology to lure innocent youth and how to prevent it. Selah Freedom is a nonprofit organization which leads the country in the anti-sex trafficking movement. They have been recognized for their outstanding accomplishments and outcomes serving this population and partner with the United States Attorney's Office and the FBI. Their expert staff will teach you how to identify red flags of sex trafficking, which dangerous apps predators target youth through, and how to discuss this issue with your kids.

Registration is not required, but appreciated for planning purposes. For more information and to pre-register visit manchestercc.edu/Selah.
