

Looking For a Limited-Time Volunteer Opportunity?

AARP volunteers do tax returns at the Manchester Senior Center four afternoons a week (M, T, W, F). We work from 1 PM to 3:30 PM from Feb 1 to April 15 using IRS software on Windows 10 computers. Training is provided online at your own pace starting in November, and in a classroom setting in January. Training is both on tax law and on the tax software we will be using. Much of the training consists of doing problems that illustrate all the aspects of tax returns for individuals, which gives you practice in both tax law and software. Other experienced volunteers will be working along-side you to help answer any questions you have. *But we cannot serve the anticipated demand for these tax services without more volunteers.*

Please consider working with us to electronically file tax returns for our neighbors. If you are interested or have questions contact Diane at 860-649-9827 or bessedmd@gmail.com .
