The Town of Manchester is asking YOU to join in on the #HappyThings project!

Social distancing and self-isolation can be frustrating, boring, and lonely at times. This feeling is normal, it's something we are all experiencing. Now is the time to find new ways of connecting, sharing, and lifting each other up.

We are asking YOU Manchester community, to spread a little bit of joy and share the things that make you happy. Maybe it's the happiness your pet shows when you give them attention or that homemade morning cup of coffee that gets you through most of your day.

Let's join together and help each other feel a little less frustrated and a little more at peace.

Where do we start? Send in a picture of your happy moment to us and we will share it to the community as a reminder that we are all in this together. Submit your photo here: https://seam.ly/eeakl4f5
