Manchester Scholarship Foundation

For over fifty years the Manchester Scholarship Foundation has awarded Traditional scholarships to graduating high school seniors who are residents of Manchester using the same criteria established by the first Board of Directors in 1965-66: academic achievement, financial need, community service, school activities, work experience, and/or special talents. Applications are now available online with a deadline of March 15, 2020.

During the last few years the board has made a very real effort to address the educational needs of a wider educational demographic while still maintaining the high standards of excellence created by the very first Board of Directors fifty years ago.
